

Environmental Policy

Boilertronics is committed to minimising adverse impact of its operations on the environment.

Boilertronics will undertake the following-:

- Comply with all relevant laws, codes, regulations and standards relating to protection of the environment.
- Maintain levels of discharge and pollution that are lower than EPA recommendations.
- Minimise waste impact by recycling where ever possible.
- Communicate openly with clients, authorities and the community at large on environmental issues relating to its operations.
- Ensure that employees and suppliers are aware of their environmental responsibilities.
- Maintain an effective and efficient management system compliant to the AS/NZS 14001
- Set key performance indicators for the management of business ensuring continuous improvement relating to environmental issues;

This policy applies to all activities undertaken or controlled by Boilertronics

A handwritten signature in black ink, appearing to read "J Watts", is positioned above the printed name.
