

Environmental Policy

In order for Boilertronics to remain committed to minimising the impact of its operations on the environment Boilertronics will undertake the following:

- Comply with all relevant laws, regulations and standards governing environmental management;
- Eliminate or minimise emissions, discharges and pollution to less than allowable levels;
- Minimise waste and recycle materials to the greatest possible extent;
- Communicate openly with clients, authorities and the community as appropriate on environmental issues relating to its operations;
- Ensure that its employees and suppliers are aware of their environmental management responsibilities in relation to the company's activities;
- Maintain an effective and efficient management system throughout the company that is compliant to the requirements of AS/NZS 14001
- Measure key performance indicators and manage the business to ensure continuous improvement;

This policy applies to all activities undertaken or controlled by Boilertronics.

A handwritten signature in black ink, appearing to read "J Watts", is positioned above the printed name.
